- Monday 29 September -

10:00 - 12:00

S3 platform aortic transfemoral case

Join us if you want:

- To practice and refine skills performing TAVI procedure using the SAPIEN platform
 - To master tips and tricks to ensure ideal deployment and optimal outcomes in real-life scenarios
 - To review all elements of screening, measuring the area, STJ, coronaries and sizing
- Patient screening and selection
 - SAPIEN platform device demonstration
 - Step-by-step procedure commented demonstration
 - Hands-on

14:00 - 16:00

S3 platform aortic transfemoral bicuspid case

Join us if you want:

- To practice and refine skills performing TAVI procedure using the SAPIEN platform
 - To master tips and tricks to ensure ideal deployment and optimal outcomes in real-life scenarios
 - To review all elements of screening, measuring the area, STJ, coronaries and sizing
- Patient screening and selection
 - SAPIEN Platform device demonstration
 - Step-by-step procedure commented demonstration
 - Hands-on

16:00 - 18:00

S3 platform aortic THV-in-THV case

Join us if you want:

- To understand the challenges of coronary access after both TAVI and TAV-in-TAV
 - To evaluate valve-specific anatomy and commissural alignment impacting access
 - To simulate bailout strategies and catheter approaches in complex post-TAVI scenarios
- Patient screening and selection
 - SAPIEN Platform device demonstration
 - Step-by-step procedure commented demonstration
 - Hands-on

- Tuesday 30 September -

10:00 - 13:00

Edge-to-edge repair with the PASCAL precision

Join us if you want:

- To get familiar with the 4D ICE imaging for intraprocedural guidance for mitral TEER with the PASCAL precision system
 - To understand how 4D ICE can support mitral TEER procedures and overcome the limitations of 4D TEE
 - To have a hands-on session with virtual 4D ICE simulators and a live demonstration of PASCAL guided by 4D ICE and 4D TEE using a beating heart simulator
- Beating heart simulation with the PASCAL precision system in the mitral position

14:00 - 17:00

Edge-to-edge repair with the PASCAL precision

Join us if you want:

- To get familiar with the 4D ICE imaging for intraprocedural guidance for mitral TEER with the PASCAL precision system
 - To understand how 4D ICE can support mitral TEER procedures and overcome the limitations of 4D TEE
 - To have a hands-on session with virtual 4D ICE simulators and a live demonstration of PASCAL guided by 4D ICE and 4D TEE using a beating heart simulator
- Beating heart simulation with the PASCAL precision system in the tricuspid position

- Monday 29 September -

08:30 - 18:40

Meril Training Village workshops powered by Simulands

Sponsored by Meril

Join us if you want:

- To discover unique features and clinical benefits of Myval THV
- To experience Myval THV in varied scenarios with Simulands
- To learn tips and tricks from experts for managing challenging anatomies
- To perform step-by-step TAVI with Mentice and VR
- To understand nuances of case planning with CT analysis using 3mensio

16:00 - 16:45

From strategy to success - Role of intermediate sizes in challenging anatomies

Sponsored by Meril

Join us if you want:

- To engage in expert-led discussions on role of intermediate sizes and its impact on optimising patient outcomes
 - To enhance procedural learning through hands on experiences on Simulands
- > From strategy to success - Role of intermediate sizes in challenging anatomies
 > Discussion and audience interaction
 > Planning precision with 3mensio
 > Hands on experience of Myval THV with Simulands

- Tuesday 30 September -

08:30 - 17:40

Meril Training Village workshops powered by Simulands

Sponsored by Meril

Join us if you want:

- To discover unique features and clinical benefits of Myval THV
- To experience Myval THV in varied scenarios with Simulands
- To learn tips and tricks from experts for managing challenging anatomies
- To perform step-by-step TAVI with Mentice and VR
- To understand nuances of case planning with CT analysis using 3mensio

10:00 - 10:45

From strategy to success - Future-proofing coronary access

Sponsored by Meril

Join us if you want:

- To explore strategies for future coronary access and gain practical insights on lifetime management of TAVI patients
 - To enhance procedural learning through hands on experiences on Simulands
- > From strategy to success - Future-proofing coronary access
 > Discussion and audience interaction
 > Planning precision with 3mensio
 > Hands on experience of Myval THV with Simulands

- Monday 29 September -

08:30 - 18:40

Mitral valve replacement and repair-DragonFly system

Sponsored by Valgen Medtech

- Tuesday 30 September -

08:30 - 17:40

Mitral valve replacement and repair-DragonFly system

Sponsored by Valgen Medtech
