

Valid as of 16 October 2025

- › Rare success story innovation structural cardiology from Indian subcontinent: paving path for future
P. Kumar
- › A new self-expandable transcatheter aortic valve: initial clinical experience in small annuli
- › Recovery of conduction after pacemaker implantation post-TAVI: LANDMARK trial subanalysis
A. Tobe
- › Totally-percutaneous combined TAVR and endovascular aortic aneurysm repair procedures
R. Jaffe (Pending confirmation)
- › Vessel-oriented analysis on QFR and mortality in severe aortic stenosis with intermediate lesions
I. Colaïori (Pending confirmation)
- › Prosthesis–patient mismatch after TAVI: overall harmless, but a hidden cardiovascular risk
L. A. Iossa
- › FFR-guided PCI in high bleeding risk patients undergoing TAVI
R. Scarsini (Pending confirmation)
- › Early outcomes of TAVI with the Hydra Valve: a prospective multicentre United Kingdom registry
F. Aboushareb (Pending confirmation)
- › TAVR with dry-tissue transcatheter valve system: three-year outcomes of the pivotal study
M. Chen (Pending confirmation)
- › Indications and outcomes of TAVI in patients under 70 years across Ireland: a multicentre study
O. Galvin
- › Aortic valve calcium score spectrum identifies bimodal outcomes for TAVI
Y. Talmor-Barkan
- › Early outcomes of TAVI with a novel third-generation balloon-expandable transcatheter heart valve
A. IELASI (Pending confirmation)
- › Performance of a novel self-expanding transcatheter heart valve in aortic valve-in-valve: the Hydra valve-in-valve registry
A. IELASI (Pending confirmation)
- › TAVR with a dedicated transcatheter heart valve in patients with severe aortic regurgitation
R. Del Maso (Pending confirmation)
- › Fiberoptic TAVI guidewire versus pigtail catheters for invasive haemodynamic assessment during TAVI
G. Versteeg
- › Inflammatory response differs in interpopulation TAVI patients - DIVER registry
A. Olasinska-Wisniewska (Pending confirmation)
- › Streamlining self-expandable valve deployment. A simplified fluoroscopic method
K. Konstantinou (Pending confirmation)
- › Novel-balloon expandable versus self-expanding valves in patients undergoing TAVI
A. Apostolos
- › Proactive surveillance to guide timing of valve intervention in severe asymptomatic aortic stenosis
J. Cotton (Pending confirmation)
- › Impact of conduction abnormalities on post-TAVI pacemaker implantation and mortality
P. M. Grossman (Pending confirmation)
- › New-onset atrial fibrillation after TAVI: an ominous occurrence
I. Hadzibegovic
- › Sex-specific one year outcomes after TAVI with Navitor transcatheter heart valve
M. Casenghi
- › Trends and risk factors of stroke after transcatheter aortic valve implantation in the Netherlands
S. Van Putten (Pending confirmation)
- › Valve-in-valve TAVI in non-fracturable stented bioprostheses with externally mounted leaflets
M. Bunc
- › AI-driven automated pre-procedural TAVI planning: a comparative study on interobserver variability
W. K. Kim
- › Relationship between baseline patient-reported health status and favourable outcome after TAVI
D. Tomii (Pending confirmation)
- › The role of covered stents in TAVI vascular complications, a single centre experience.
A. M. Omar
- › Novel vs. contemporary balloon-expandable valve in patients undergoing TAVI
N. Ktenopoulos

- › Discrepancy between invasive and echocardiographic mean gradients after TAVI in an all-comers cohort
A. Schober (Pending confirmation)
- › Impact of SGLT2i on acute kidney injury in diabetic patients with severe aortic stenosis undergoing TAVI
P. Paolisso
- › Impact of supra-annular (LIRA) vs. annular sizing on outcomes of TAVI with bicuspid aortic valve
C. Ayhan (Pending confirmation)
- › Transcatheter aortic valve implantation in patients with complex femoral access
D. Pérez Camargo
- › Optimising repeat TAVR with different frame type and valve combinations: impact on coronary risk
W. H. Yin
- › BSA-indexed aortic annulus measurement as a predictor of prosthesis and dash: patient mismatch in TAVI
C. Demirel
- › Anatomical variations in permanent pacemaker requirement after TAVI in bicuspid anatomy
Z. Zhao
- › Matched pairs comparison of Meril Octacor versus Edwards Sapien 3 in patients with aortic stenosis
U. Zeymer
- › Myocardial work analysis assessment of reverse remodeling after TAVI: a single center study
G. Papadopoulos
- › Survival following urgent transcatheter aortic valve implantation and balloon aortic valvuloplasty
K. DIMITRIADIS
- › Transcatheter vs. surgical valve replacement in patients with radiation-induced aortic stenosis
C. Sanfilippo (Pending confirmation)
- › Optimising TAVR with fifth-generation self-expanding valves: a single-center comparative analysis
I. chirichilli
- › When annulus size matters: differential outcomes of prosthesis–patient mismatch after TAVI
L. A. Iossa
- › Optimal pacing rate for quick final Evolut deployment according to haemodynamics by the SavvyWire
T. Sakamoto
- › Prognostic significance of severe malnutrition in dialysis patients who underwent TAVR
Y. Nakata
- › Frailty status recovery after TAVR: determinants and association with long-term outcomes
K. Ishihara
- › Performance of non-compliant balloons in transcatheter aortic valve intervention: a bench study
M. Vanhaverbeke
- › Prospective registry data for TAVI in small annuli: are intra-annular devices that bad?
S. Gjorgjievska (Pending confirmation)
- › Safety and efficacy of a contemporary balloon expandable valve: a meta-analysis
N. Ktenopoulos
- › Expansion variability of commercial valvuloplasty balloons in TAVI: caveat emptor
B. W. T. Soh
- › Clinical and hemodynamic outcomes in high-gradient aortic stenosis insights from TAVR interventions
F. Gramegna (Pending confirmation)
- › Transcatheter aortic valve implantation with Navitor valve in patients with small annuli
M. Casenghi
- › A novel balloon-expandable THV for the treatment of severe pure non-calcified aortic regurgitation
A. IELASI (Pending confirmation)
- › Evolution of cardiac damage post-TAVI and its relationship with symptomatic response and outcomes
K. Panaou
- › Prediction of short and medium-term mortality in patients undergoing TAVI
K. Badura (Pending confirmation)
- › Breaking barriers hybrid robotic and TAVI for complex aortic and coronary artery disease challenges
U. Aluthman
- › Haemodynamic and clinical performance of four TAVI platforms in patients with a small aortic annulus
K. Steblovnik (Pending confirmation)

- Protocol-based pacemaker implantation in relation to TAVI: a retrospective observational study
T. V Vadiveloo
- A conversion-censored analysis of TAVR vs. surveillance in the TAVR UNLOAD trial
P. von Stein (Pending confirmation)
- Incidence, predictors and prognosis of subclinical valve thrombosis after TAVR in bicuspid anatomy
X. Wang (Pending confirmation)
- Sex differences in in-hospital mortality after TAVI: impact of day-zero life-threatening events
S. Beurtheret (Pending confirmation)
- Predictors of long-term survival following transcatheter aortic valve implantation
C. Schulz
- Effect of ejection fraction on Pre-TAVI echocardiographic and invasive pressure gradient discordance
K. Allison
- CT scan predictors and prognostic impact of combined pulmonary hypertension in patients with severe aortic stenosis undergoing TAVI
F. Putorti (Pending confirmation)
- Effect of pressure recovery on invasive-echocardiographic gradient discordance after TAVR
F. Arturi (Pending confirmation)
- Ten-year clinical outcomes and valve durability following transcatheter aortic valve implantation
A. Ikuta (Pending confirmation)
- Conduction system pacing in TAVR patients requiring permanent pacemaker implantation
J. Nuche
- TAVI for bicuspid aortic valve disease: real-world outcomes from a United Kingdom centre
D. Weeraman
- Transcatheter aortic valve implantation initial experience in high risk patients
T. Sargsyan (Pending confirmation)
- Comparative outcomes of plug vs. suture-based vascular closure devices in transfemoral TAVI
G. Vizzari
- Cerebral protection reduces in-hospital stroke in high-risk patients undergoing TAVR
K. Yamasaki
- Single-operator TAVI with an automatic release device: early multicenter experience
F. Pensotti
- TAVR ACURATE NEO2: analysis of underexpansion and mid-term clinical outcomes
A. Martinez Ballesta (Pending confirmation)
- Impact of double inflation on valve expansion and short-term outcomes after balloon expandable TAVR
P. Krishnamoorthy
- The impact of cerebral embolic protection during TAVR on periprocedural neurological outcomes
F. Baysal
- Conservative versus surgical treatment of post-transcatheter aortic valve implantation endocarditis
P. Theofilis (Pending confirmation)
- Procedural and mid-to-long term outcomes of valve-in-valve TAVI: a prospective single-center study
G. Papadopoulos
- Standardised structural heart valve clinics as a bridging tool for timely transvalvular interventions
K. K. K. Kyaw
- Assessing clinical outcomes in patients with TAVI embolisation, undergoing TAVI valve-in-valve procedure
D. Dalip
- Advantages in coronary cannulation after TAVI with the Evolut FX+ valve: a geometry analysis
G. Pesarini (Pending confirmation)
- Clevidipine in percutaneous TAVR: the CLEVER TAVR (CLEvidipine effects rapidly) registry
S. Muraglia (Pending confirmation)
- Dynamic hemodynamic changes and prognostic implications of ambulatory arterial stiffness after TAVR
C. H. Tseng
- Valve-in-valve TAVI for failed self-expandable stented sutureless surgical bioprosthetic valves
M. Bunc

- Mid-term clinical and echocardiographic outcomes after accurate neo2 aortic valve implantation
L. Yara (Pending confirmation)
- Feasibility of redo-TAVR using in vitro computed tomography: a Thai-based study
W. Wangpermpoon (Pending confirmation)
- Routine same-volume post-dilatation of Edwards S3 TAVI corrects stent recoil and enhances frame area
T. Bagnall
- Prosthesis-patient mismatch after TAVI: the importance of right-sided cardio-pulmonary remodelling
V. Androschuk
- Clinical outcomes with renin-angiotensin system blockers after TAVI: a systematic review and meta-analysis
D. J. Nyberg
- Safety and efficacy of a suture-based vascular closure device in transfemoral TAVI
I. Seropian (Pending confirmation)
- Balloon-expandable TAVR valves for mitral valve-in-valve replacement: early outcomes
C. James
- Outcomes of TAVR in patients with moderate mixed aortic valve disease
Y. Tang (Pending confirmation)
- Patients features and late outcomes of TAVR in high-risk patients with pure aortic regurgitation
M. Russo
- Managing hostile aortic anatomies using an extended length introducer sheath during transfemoral TAVR
Y. Kobari
- Need for permanent pacemaker implantation after TAVI in septuagenarians at low to intermediate risk
N. Ktenopoulos
- Single versus double perclose vascular closure device in transcatheter TAVI: a meta-analysis
K. Kalogeras
- Outcomes of redo TAVI after prior surgical AVR: a single-centre cohort
R. Rehan
- Impact of dedicated transfemoral TAVI devices on the treatment of pure native aortic regurgitation
J. Hon
- Myval series in women with severe aortic stenosis: one-year outcomes from the LANDMARK trial
I. J. Amat-Santos
- Impact of transcatheter aortic valve implantation on left ventricular function: long-term follow-up
T. Anastasiou (Pending confirmation)
- Short-term outcomes of Myval transcatheter heart valve in valve-in-valve procedures
K. Lampropoulos (Pending confirmation)
- Stroke risk with ACURATE neo/neo2: A meta-analysis of randomized trials
K. Lampropoulos (Pending confirmation)
- TAVI for pure native aortic regurgitation using the ACURATE neo valve: clinical outcomes
F. Hossam (Pending confirmation)
- Portico valve-in-valve for degenerated surgical aortic bioprosthesis: a real-world experience
E. Criscione (Pending confirmation)
- Comparative evaluation of self-expandable valve and balloon-expandable valve in contemporary valve-in-valve TAVI
S. Rajendra
- Percutaneous axillary access for TAVI: insights from a prospective 2164 patients study
A. Morello
- Gender differences in permanent pacemaker after TAVI: subgroup analyses from a single-center registry
