Learning

Mitral TEER: anatomy, systematic imaging screening and patient selection

Facilitators: S. Dawkins, X. Freixa, M. Swaans, M. Wild

Join us if you want:

- To learn more about the clinical and anatomical selection criteria for mitral TEER
- To learn how to apply a systemic screening algorithm
- To know how to analyse TOE images and choose the appropriate TEER device

14:30 - 14:40

PLATINUM
SUITE 2 (EXCEL
LONDON)

Keynote Lecture

A word from our sponsor

Supported by an unrestricted educational grant from Medtronic

13:00 - 14:30

Pre-TAVI CT scan: a TAVI roadmap

This session has been made possible thanks to the kind support of Pie Medical Imaging

Facilitators: T. Cahill, C. Cook, C. De Biase, A. Mcinerney

Join us if you want:

- To learn why we need a pre-TAVI CT
- To discuss complex pre-TAVI CT scenarios
- To understand how pre-TAVI CT can help prevent procedural complications

14:30 - 14:40

PLATINUM
SUITE 1 (EXCEL
LONDON)

Keynote Lecture

A word from our sponsor

Supported by an unrestricted educational grant from Edwards Lifesciences

14:55 - 16:25

Learning

Mitral TEER: step-by-step procedure

Facilitators: S. Dawkins, X. Freixa, M. Swaans, M. Wild

Join us if you want:

- To understand the key steps of contemporary mitral TEER
- To understand the principles and technical considerations of performing a safe and effective transseptal puncture (TSP)

13:00 - 14:30

PLATINUM
SUITE 3 (EXCEL
LONDON)

Learning

Tricuspid valve imaging and patient selection for intervention

Facilitators: N. Ajmone Marsan, E. Ho, N. Karam, F. Praz

Join us if you want:

- To get familiar with comprehensive echocardiographic imaging of the tricuspid valve for screening, including TTE and TOE
- To understand the role of computed tomography and cardiac MRI in evaluating patients with tricuspid valve disease
- To learn about the parameters involved in patient selection for intervention

14:55 - 16:25

PLATINUM
SUITE 1 (EXCEL
LONDON)

Learning

Procedural steps in TAVI: all you need to know

Facilitators: T. Cahill, C. Cook, C. De Biase, A. Mcinerney

Join us if you want:

- To define how to optimise the TAVI setting
- To learn step-by-step contemporary TAVI
- To discuss how to assess TAVI results and manage patient discharge

14:55 - 16:25

PLATINUM
SUITE 3 (EXCEL
LONDON)

Learning

Tricuspid TEER: step-by-step procedure

Facilitators: N. Ajmone Marsan, E. Ho, N. Karam, F. Praz

Join us if you want:

- To learn about anatomic and clinical selection criteria for tricuspid TEER
- To learn about how to analyse a TOE for tricuspid TEER procedure planning
- To understand the key steps of contemporary tricuspid TEER

16:50 - 18:20

PLATINUM
SUITE 3 (EXCEL
LONDON)

Learning from experience in tricuspid interventions

Facilitators: N. Ajmone Marsan, E. Ho, N. Karam, F. Praz

Guest speakers: D. Tchetché, N. Wunderlich

Join us if you want:

- To learn more about tricuspid interventions from real cases
- To understand how to troubleshoot intraprocedural imaging and interventional challenges
- To learn tips and tricks for tricuspid interventions

16:25 - 16:35

PLATINUM
SUITE 1 (EXCEL
LONDON)

Keynote Lecture

A word from our sponsor

Supported by an unrestricted educational grant from Medtronic

18:20 - 18:30

PLATINUM

Mitral TEER: clinical cases and tips and tricks

Facilitators: S. Dawkins, X. Freixa, M. Swaans, M. Wild

Guest speakers: F. Maisano, T. Patterson

Join us if you want:

- To learn how to approach challenging anatomies and procedural pitfalls through real-life clinical cases
- To understand key decision-making steps during Mitral TEER procedures, including when to reposition or add a second clip
- To learn practical tips and tricks for optimising transseptal puncture, clip steering, leaflet grasping, and mitral regurgitation assessment

18:30 - 20:00

TAVI pitfalls: expect the unexpected

Facilitators: T. Cahill, C. Cook, C. De Biase, A. Mcinerney

Guest speakers: N. Piazza, S. Redwood

Join us if you want:

- To learn how routine cases can become a nightmare
- To understand how to manage common TAVI complications
- To discuss tips and tricks to navigate complex TAVI anatomies
