The ESC Mission

TO REDUCE THE BURDEN OF
CARDIOVASCULAR DISEASE

The ESC is a global organisation that caters for all cardiovascular specialists.

Our diversity is our strength

100,000

scientists, clinicians,
nurses & allied
professions

57

**National Cardiac
Societies**

from Europe and the
Mediterranean basin

47

**Affiliated Cardiac
Societies**

from around
the globe

29

**Subspecialty
Communities**

All cardiology subspecialties

The ESC covers the full spectrum of cardiology through its 29 subspecialty communities; 7 Associations, 15 Working Groups and 7 Councils. This gives us a unique perspective on all areas of cardiovascular science.

How the ESC works

- The ESC is governed by an elected Board of volunteers who are cardiovascular experts.
- Its activities are overseen by **dedicated committees** made up of more than **2,000 volunteers**.
- In all, some **5,000 cardiology experts** contribute to ESC activities. The success of the ESC is testament to the dedication of its volunteers.
- The ESC employs **staff** who support ESC volunteers in the development and management of its activities. ESC staff report to the Chief Executive Officer, who reports to the President and Management Group of the ESC Board.
